About Us

We are Donna and Alan, two professional contemporary wedding photographers who form a unique partnership to create some of the most stunning wedding photography in Dorset and Hampshire. With over 10 years experience and over 300 weddings photographed, we work in harmony to capture every memory and special moment of your wedding day. Two wedding photographers, two cameras and two different perspectives ensure not a moment of your wedding day is missed. Our style is contemporary, imaginative and creative. It allows you and your guests to feel relaxed and able to enjoy the day without it being dominated by the photographer!

We prepare thoroughly for each wedding and offer attention to detail at all stages. Prior to your wedding we meet you at your chosen venues and discuss your requirements for the day. Our commitment to you on the day itself means that you will have photos of which you can be proud. Your images are edited and placed on-line within two weeks of the wedding. Your collection of images is carefully selected, with each image being individually edited. Album design and creation is a collaborative partnership. In addition to this we aim to choose a selection of our personal favourite images for our Blog within 24 hours of the wedding, so you get that 'sneak peak' before you go off on that all important honeymoon!

We offer attractive pricing to suit all budgets and are confident that our pricing structure is one of our strengths. Our website and our word-of-mouth reputation secure our extensive annual portfolio of weddings.

Please feel free to contact us for a no obligation meeting. We look forward to hearing from you!

Our Packages

All of our album packages include a high resolution DVD of all your wedding images that have been carefully edited and are free for you to print as you choose.
